**Warranty Extension Coverage/Limitations**

During the time/mileage period specified above, an authorized Audi Dealer will diagnose and replace the Starter-Alternator at no cost to you if diagnosis confirms that the Starter-Alternator has failed from a warranty defect.

If diagnosis reveals that your vehicle has an unrelated issue(s), the necessary repairs will not be covered under this warranty extension. Your dealer will advise you what the associated repair cost(s) will be.

**What you should do:**

- Please keep this letter with your Warranty booklet for future reference, and deliver it to any new owner, along with the owner's manual. Should you ever sell the vehicle, this warranty extension is fully transferable to subsequent owners.

**Additional Information**

- The vehicle's original in-service date is defined as the date the vehicle was delivered to either the original purchaser or the original lessee; or if the vehicle was first placed in service as a "demonstrator" or "company" car, on the date such vehicle was first placed in service.
- The warranty and maintenance information that came with your vehicle contains information on the limited warranties applicable to your vehicle. Please read these limited warranties carefully to determine your warranty rights and obligations, as this information also applies to the coverage provided to you in this warranty extension.
- Damage or malfunctions caused by outside influence, such as damage due to an accident, or vehicle misuse or neglect, and repairs that are necessary for proper diagnosis of these conditions or required to bring the vehicle up to factory specifications are not covered by this warranty extension.
